HOTEL KLAUS K

Helsinki

PRODUCT

Foldable grab rail

MAGNUFACTURER

Duuri Oy

MORE INFORMATION

The foldable grab rail is made from ergonomic white LD polyethylene that is warm to the touch. The grab rail is easy to detach and reattach, which is particularly great for hotel rooms that are fitted according to the client's preferences. When the grab rail is not needed, it can be detached, and an unobtrusive cover plate can be screwed in its position.
